

# RENAISSANCE KNIGHTS CHESS CLUB

BUILDING STRATEGIES - INSTILLING CONFIDENCE  
DEVELOPING ACADEMIC & LIFE SKILLS

**LET YOUR CHILD BE A PART OF THE FUN TODAY!**

*Whether your child plays already, or wants to start, our classes cater to all levels of chess ability*

***Develop your child's intellect through the royal game of chess!***

Research has shown chess enhances cognitive development in children, improves math and verbal skills, and increases all levels of academic performance. Also, chess has been proven to enhance children's motivation, concentration, focus, social skills, and creativity.

At Renaissance Knights we employ a unique teaching methodology that puts the emphasis on skill-building and positive reinforcement rather than memorization. Students learn to focus, think creatively, and consider all their options before they make a choice. Reasoning, problem solving, plus analysis of steps and missteps are all part of the process that leads to confidence and good judgment.

Students are challenged by fun games and lessons from our staff of world class chess instructors. Our program is so successful because our unique approach gives students the opportunity to have fun while making it easy for them to learn the game of Kings and Queens. The skills the students acquire from chess translate into success in school and for their future success in the global information society.

Our classes are structured, well-managed, and designed to build a child's confidence, as well as a love for the game that will last a lifetime.

More information on Renaissance Knights and our monthly tournaments can be found at [www.rknights.org](http://www.rknights.org)
